Internet Safety Day 2024

Tuesday, 6th February was Internet Safety Day. This was marked in School with special lessons across the school looking specifically at Inspiring Change? Making a difference, managing influence and navigating change Online. Children designed how to stay safe Online posters thinking about how we can protect our personal information, select safe passwords and to be kinder Online. The Year 6 Digital Champions set an amazing quiz for the whole school. Well done to everyone involved - the children showed that they continue to understand the key safety messages.
